

# Wynne Hayakawa

## ARTIST STATEMENT

I try to capture the sense of walking among trees by photographing them while moving the camera. Slow shutter speeds result in abstract patterns of light and dark. I print these images on canvas, and continue with oil paint, emphasizing color, and the space around the trees.

I grew up in Northern California and takes photos mostly in the area.

“We live our lives largely inside buildings. I hope to create places where we can exist for a while among the trees.”
